Reflect on Action Plan

My Term 3 SMART goal was to earn at least a 5 in math.

My smart term goal was to get at least one 5 in math, I met my goal because I got 3 6s and one 8 on a test. I feel proud of myself and I hope to keep it up, also it helped that I got help during brunch from Ms.Sandusky.

Communication

Since term 2, I've always been good at participating during class. I have been taking notes when paying attention and when I am with partners I pay attention and complete work and think about with others.

Here is evidence of my improvement:

Collaboration

I am good at teamwork and I give appropriate work so everyone has the same amount work. I make sure too that people understand what to do and check my partners work if they need help

Here is evidence of my improvement:

This shows improvement in my collaboration skills because this is a list of what everyone needs to-do.

Research

Since the 2nd quarter and learning about lots of social justice issues during the class your voice though cinema , I have been research

Here is evidence of my improvement:

- She meets Hillary
on the beach in Atlantic
City then soon after they
become best friends and
always write over the years
then they meet after
so long- then they get in
a big fight and they do not
speak, that's where the movie
is left off

This shows improvement in my research skills because I used multiple sources to complete it--my teacher, the internet, and a map.

Thinking

Since the school year started, I've always been good at thinking about a math problem and wiring the gist when reading and writing themes and thinking about the main idea.

My evidence:

On the beach in Alahic
City then soon after they
became best friends and
allways write over the years
then they meet after
so long. then they get in
a big fight and they do not
Speack, thats where the movie
is left off

Connecting to My Learning

1. The most interesting thing I have learned about this year is how to weave in art.
2. It was interesting because I learned a little about weaving and how it was important and how to do it at home
3. It connects to my life because I love to design things and this adds to my list of fabrics and materials to use.

My contributions to the DCI community this year were...

Being:

- ❑ Principled.
x I keep my phone put away except for during brunch and lunch.
- ❑ I pick up trash that isn't mine at the end of lunch.
- ❑ Open-Minded
x I go to lunch talks so that I can learn about things that I don't understand

Lunch Clubs: farm to table, LVV and marine biology.

A street-level view of a city street, likely in New York City, featuring historic brick buildings on either side. In the background, the Freedom Tower (One World Trade Center) stands prominently against a clear blue sky. The word "Thanks" is overlaid in large, white, sans-serif font across the center of the image. In the foreground, a Starbucks Coffee store is visible on the left, and a red mailbox with "VOICE" written on it is on the right. Street signs for "ONE WAY" and "CYS" are also visible.
